EDUCATION

Sep 2025 - Present
Stanford University
Certificate in UIUX for AI Products

Sep 2023 - Mar 2024
Columbia University
UX/UI Bootcamp

Aug 2020 - May 2022
Pratt Institute
MPS in Arts and
Cultural Management • GPA 3.8

Aug 2015 - May 2019
Pennsylvania State University
BA in Visual Arts

SKILLS

- Human-AI Interaction Design
- AI-Integrated UX Workflows
- Prototyping AI Designs
- User Research
- User Flow
- Design Thinking
- Wireframing
- Information Architecture
- Usability Testing

WORK EXPERIENCE

Independent UX/Product Designer

Self-Initiated Projects | 2024 - Present

Conceptualized and designed AI-powered digital experiences addressing real user and business challenges, leading end-to-end design from concept to prototype.

Insightify – AI Customer Review Analyzer

- Created an interface that classifies and visualizes customer feedback using NLP-driven sentiment analysis.
- Built high-fidelity prototype and user flow, currently preparing for usability validation.

RentBot – AI Rental Assistant

- Designed a platform-embedded chatbot experience to help renters and real estate agents streamline communication and data collection.
- Prototyped branching flows and microinteractions enhancing engagement and trust; preparing for real-user testing.

UX/UI Designer (Contract)

Next Innovation LLC | Nov 2023 - Apr 2024

Led UX design for two early-stage startup products, driving end-to-end design from research to high-fidelity prototypes with cross-functional collaboration.

CourtVision

- Designed the full UX process — from discovery and journey mapping to concept ideation and prototype delivery — laying the foundation for MVP development.
- Facilitated agile sprints and design reviews to iterate on user flows and interaction models based on early feedback.

Momotaro Tea

- Defined product vision and key features through stakeholder workshops and user research.
- Created annotated user flows, scalable design system, and interactive prototypes optimized for developer handoff.
- Documented deliverables for future implementation after project was paused due to business constraints.
